

I would not like the change to be passed that allows a corporation to own more than one television station in an area. I feel we need the competition to give us different view points and consolidating the ownership would restrict this. My area is only served by 3 local news broadcasts and each of them have different focal points. This area serves many communities and each station seems to favor a different community which I think would be very much limited if the ownership became under one company. I personally live in one of the smaller communities which I think would lose the coverage we do have under the change being considered. Different owners have different focuses, different styles and of course, different viewpoints. I would like you to consider letting the statue stand as it is now. Thank you.
